DETAILED ACTION

Election/Restrictions

1. This application contains claims 7-16 drawn to an invention nonelected with traverse in Paper Filed July 15, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

2. In view of the appeal brief filed on February 21, 2006, PROSECUTION IS HEREBY REOPENED. A new ground of rejection set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below.

3. Applicant's arguments, see appeal brief pages 3-6, filed February 21, 2006, with respect to the rejection(s) of claim(s) 1-5 under 35 U.S.C. 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Art Unit: 3728

However, upon further consideration, a new ground(s) of rejection is made in view of Adelberg et al. (6,451,590).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alexandre Catlin et al. (2002/0169092) herein after Catlin in view of Adelberg et al. (6,451,590). Catlin discloses a container for a product for dissolution in a liquid, comprising: a sealed pouch made of a material that is soluble in said liquid; a product contained in a pouch; and a gas contained in the pouch in sufficient quantity to cause the pouch to be resilient at ambient conditions. See page 15, paragraphe [0181].

Catlin does not appear to disclose the air to be pressurized. Adelberg '590 discloses that it is desirable to introduce pressurized gas into pouches to afford to the pouch a flexible mechanical resistance to better protect the product held therein. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to make provide pressurized gas to the pouch of Catlin as taught by Adelberg '590 to afford to the pouch a flexible mechanical resistance to better protect the product held therein.

With respect to claim 3, see page 8, paragraph [0097] that teaches the pouch being made of polyvinyl alcohols.

With respect to the pressure of the gas, it would have been obvious to one of ordinary skill in the art at the time the invention was made to adjust the gas pressure, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art.

Response to Arguments

6. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
